This table is the combined California 2012 303(d) list (combines category 4a, 4b and 5). Meaning that the tables include listings still requiring the development of a TMDL, those that have a completed TMDL approved by USEPA, and those that

* USGS HUC = US Geological Survey Hydrologic Unit Code. Calwater = State Water Resources Control Board hydrological subunit area or even smaller planning watershed.

** ORIGINAL = unchanged 2010 decision; REVISED = New 2012 decision or Revised 2010 decision decision

*** TMDL requirement status definitions for listed pollutants are: A= TMDL still required, B= being addressed by USEPA approved TMDL, C= being addressed by action other than a TMDL

**** Dates relate to the TMDL requirement status, so there will only be one applicable date for each listing.
