ATTACHMENT A

FACILITIES COVERED BY NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES)
GENERAL PERMIT FOR STORM WATER DISCHARGES ASSOCIATED WITH INDUSTRIAL
ACTIVITIES (GENERAL PERMIT)

1. Facilities Subject To Storm Water Effluent Limitations
Guidelines, New Source Performance Standards, or
Toxic Pollutant Effluent Standards Found in 40 Code of
Federal Regulations, Chapter I, Subchapter N
(Subchapter N):

- Cement Manufacturing (40 C.F.R. Part 411);
- Feedlots (40 C.F.R. Part 412);
- Fertilizer Manufacturing (40 C.F.R. Part 418);
- Petroleum Refining (40 C.F.R. Part 419);
- Phosphate Manufacturing (40 C.F.R. Part 422);
- Steam Electric (40 C.F.R. Part 423);
- Coal Mining (40 C.F.R. Part 434);
- Mineral Mining and Processing (40 C.F.R. Part 436);
- Ore Mining and Dressing (40 C.F.R. Part 440);
- Asphalt Emulsion (40 C.F.R. Part 443);
- Landfills (40 C.F.R. Part 445);
- Airport Deicing (40 C.F.R. Part 449).

2. Manufacturing Facilities:

- Facilities with Standard Industrial Classifications (SICs)
  20XX through 39XX, 4221 through 4225. (This
category combines categories 2 and 10 of the previous
general permit.)

3. Oil and Gas/Mining Facilities:

- Facilities classified as SICs 10XX through 14XX,
  including active or inactive mining operations (except
  for areas of coal mining operations no longer meeting
  the definition of a reclamation area under 40 Code of
  Federal Regulations. 434.11(1) because the
  performance bond issued to the facility by the
  appropriate Surface Mining Control and Reclamation
  Acts authority has been released, or except for areas of
  non-coal mining operations which have been released
  from applicable State or Federal reclamation
  requirements after December 17, 1990) and oil and gas
  exploration, production, processing, or treatment
  operations, or transmission facilities that discharge
  storm water contaminated by contact with or that has
  come into contact with any overburden, raw material,
  intermediate products, finished products, by-products,
  or waste products located on the site of such
  operations. Inactive mining operations are mining sites
  that are not being actively mined, but which have an
  identifiable owner/operator. Inactive mining sites do not
  include sites where mining claims are being maintained
  prior to disturbances associated with the extraction,
  beneficiation, or processing of mined material; or sites
  where minimal activities are undertaken for the sole
  purpose of maintaining a mining claim.

4. Hazardous Waste Treatment, Storage, or Disposal
Facilities:

- Hazardous waste treatment, storage, or disposal
  facilities, including any facility operating under interim
  status or a general permit under Subtitle C of the

5. Landfills, Land Application Sites, and Open Dumps:

- Landfills, land application sites, and open dumps that
  receive or have received industrial waste from any
  facility within any other category of this Attachment;
  including facilities subject to regulation under Subtitle D
  of the Federal Resource, Conservation, and Recovery
  Act, and facilities that have accepted wastes from
  construction activities (construction activities include
  any clearing, grading, or excavation that results in
  disturbance).

6. Recycling Facilities:

- Facilities involved in the recycling of materials, including
  metal scrapyards, battery reclaimers, salvage yards,
  and automobile junkyards, including but limited to those
  classified as Standard Industrial Classification 5015 and
  5093.

7. Steam Electric Power Generating Facilities:

- Any facility that generates steam for electric power
  through the combustion of coal, oil, wood, etc.

8. Transportation Facilities:

- Facilities with SICs 40XX through 45XX (except 4221-
  25) and 5171 with vehicle maintenance shops,
  equipment cleaning operations, or airport deicing
  operations. Only those portions of the facility involved
  in vehicle maintenance (including vehicle rehabilitation,
  mechanical repairs, painting, fueling, and lubrication)
  or other operations identified under this Permit as
  associated with industrial activity.

9. Sewage or Wastewater Treatment Works:

- Facilities used in the storage, treatment, recycling, and
  reclamation of municipal or domestic sewage, including
  land dedicated to the disposal of sewage sludge, that
  are located within the confines of the facility, with a
design flow of one million gallons per day or more, or
required to have an approved pretreatment program
under 40 Code of Federal Regulations part 403. Not
included are farmland, domestic gardens, or lands
used for sludge management where sludge is
beneficially reused and are not physically located in the
confines of the facility, or areas that are in compliance
with Section 405 of the Clean Water Act.
